About This Game

Storyline

In the game, you have to try your hand at defending humanity from the invasion of zombies! Who will do it better than the Great Wall Builder, Mr. Trump? xD However, zombies are not as simple as they seem. With every attempt, they become stronger, deft and faster. In order to defeat them, you need to develop an individual strategy for each of the types of zombies. To do this, you will be helped by a number of features, such as combining types of shells and weapons.

Genre [/ h2]
Do you remember custom maps of WC3 so loved by many players? They served as inspiration for creating a game designed in the style of Lane Wars with the implementation of the RPG system.

===============
